

Our programs are designed to help individuals in need, regardless of their immigration status. At the Hope Center USA, we believe in serving all members of our community with compassion and without discrimination. Our aim is to provide support and resources to those seeking to improve their language skills through ESL classes and gain citizenship through our assistance programs.

It is important to note that as a not-for-profit organization, our primary focus is on bringing hope to all individuals in need, and we do not inquire about guests' immigration status during our intake process. Our policies and practices are aligned with the laws of the United States, and we are committed to upholding ethical standards while serving the community.

At the Hope Center USA, we embrace diversity and strive to create a welcoming and inclusive environment for everyone who seeks our support. We believe that as believers, we are called to serve with love and kindness, following the teachings of Christ in reaching out to those in need.
